# SIS 'PUBLIC CONTROL'

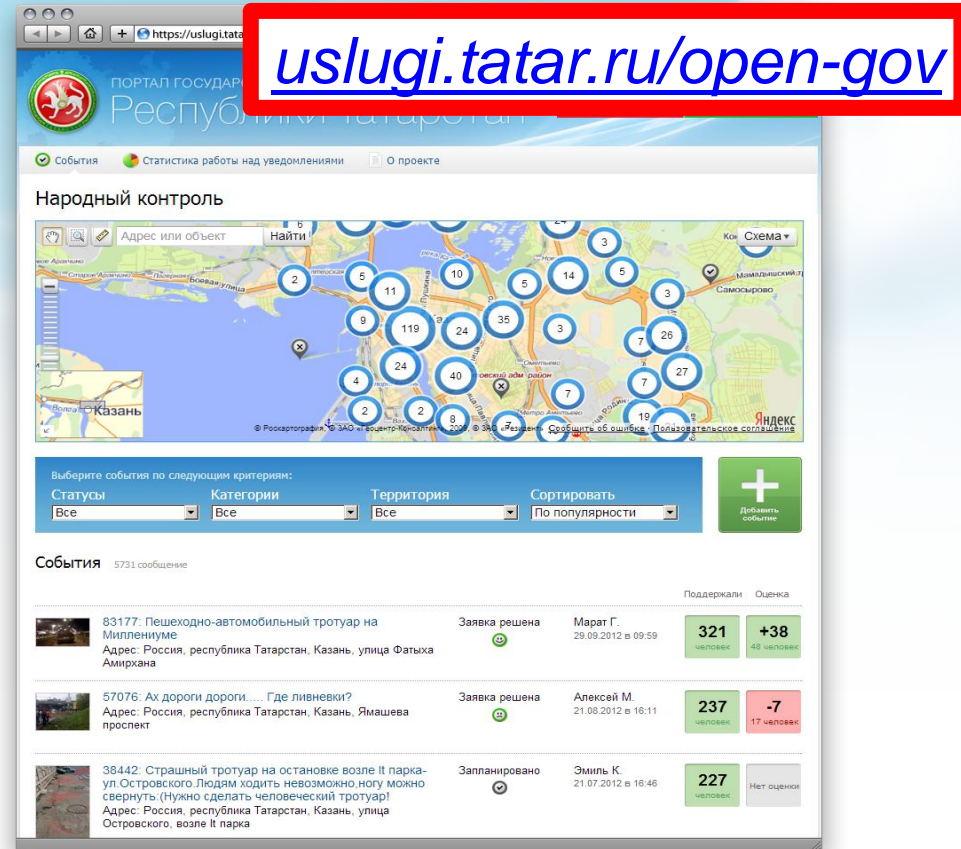

## ELECTRONIC NOTIFICATIONS FROM PUBLIC

### PURPOSES:

- To establish public control and public opinion research;
- To create direct channels of communication between citizens and local government, monitoring applications of people about topical issues;
- To form unity information platform for discussing questions concerning social and political activity.

### GENERAL MECHANISM:

- Everybody can report a problem by indicating location and using photo evidences;
- Everybody can support already-existing problem, making it more topical.

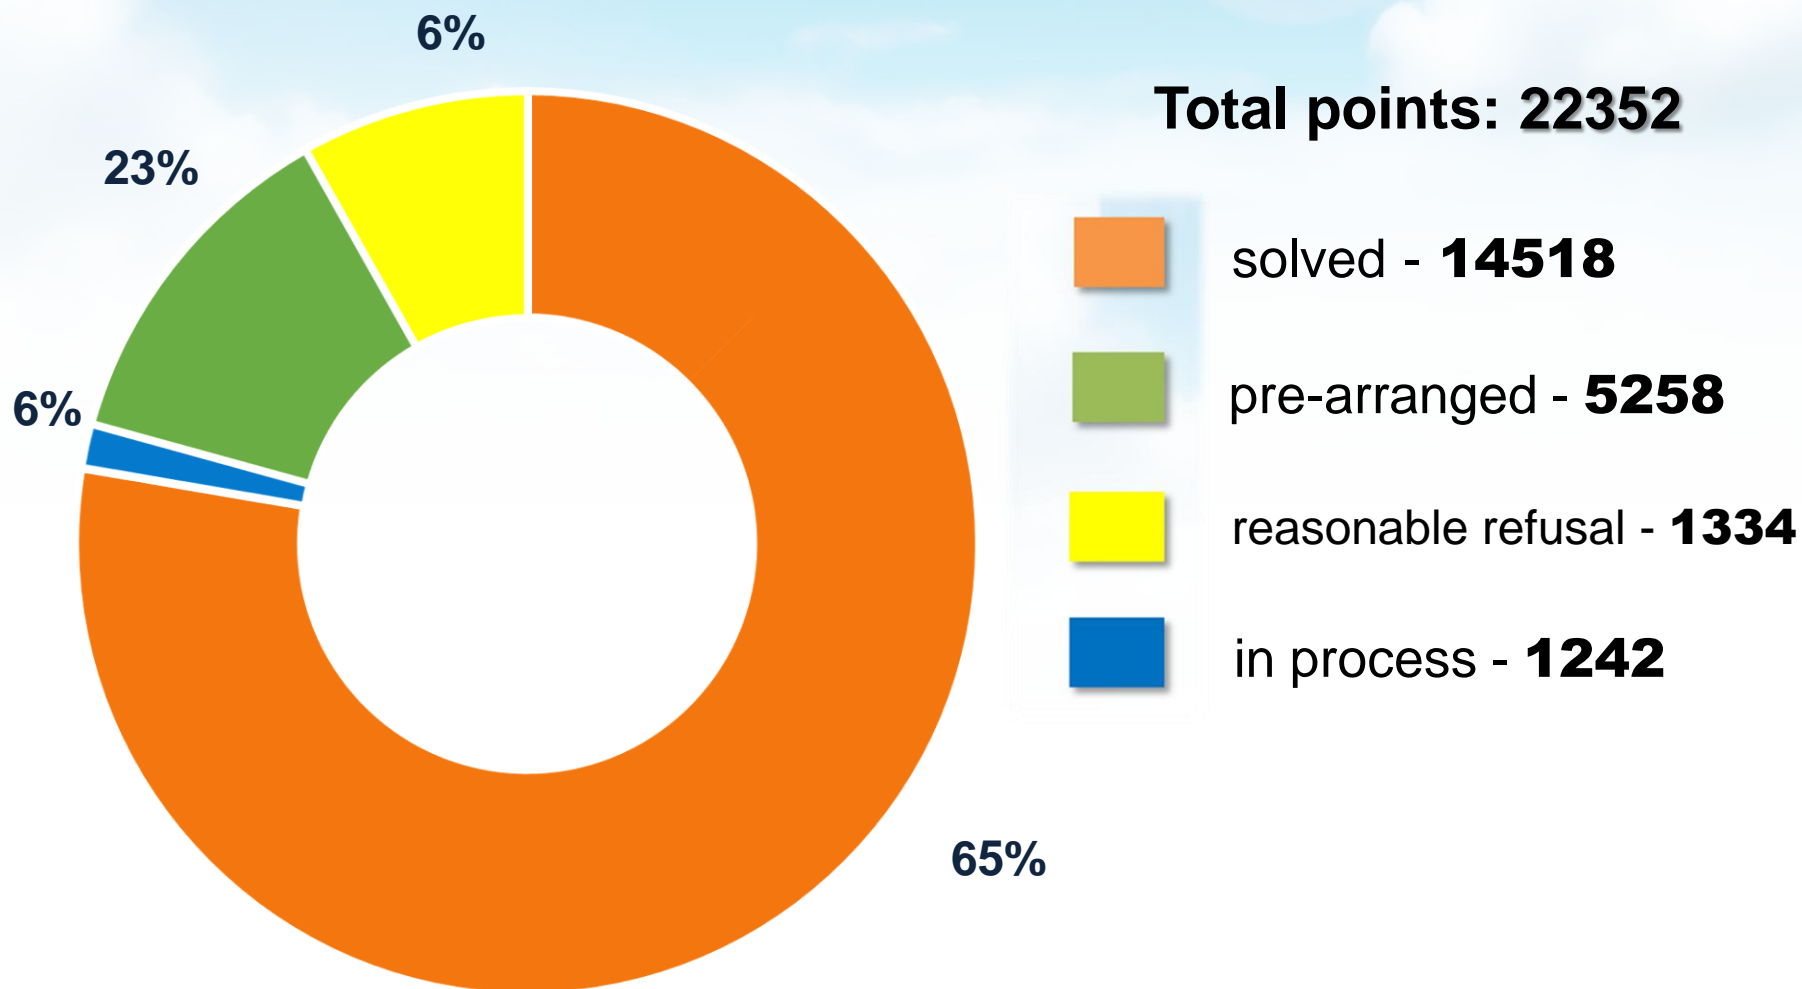

### RESULT:

Improvement socio-economic facilities of our republic, governmental and municipal administration, quality of federal and local socially important service.

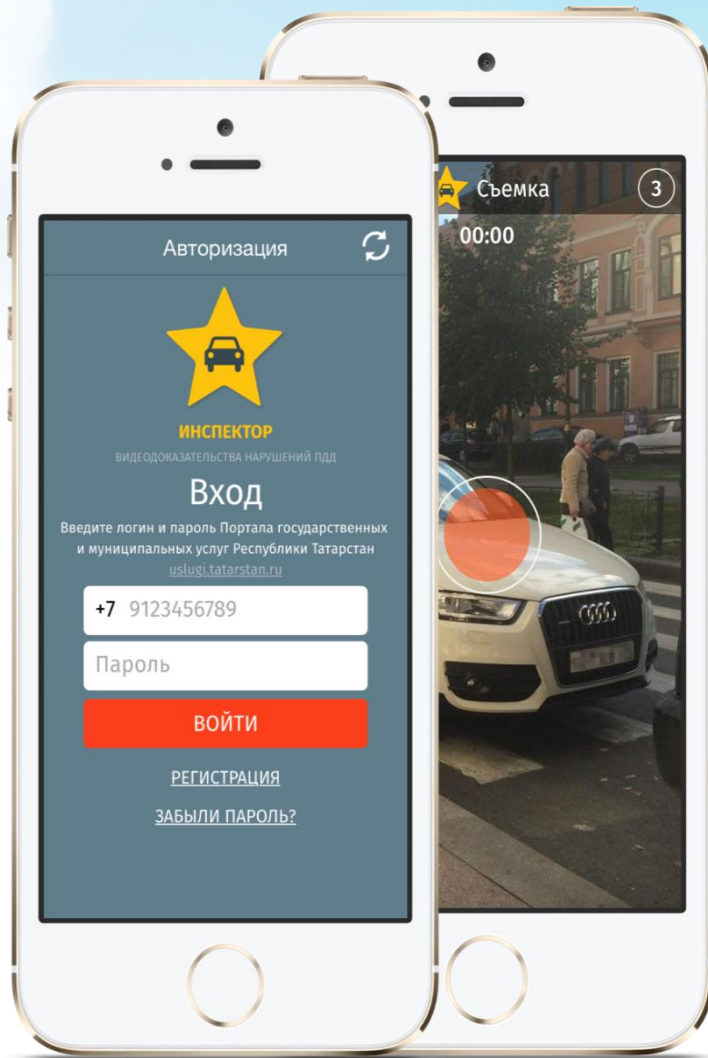

## The general results of working SIS 'PUBLIC CONTROL' *for half-year of 2016*

# Public Inspector / video evidences of violations

Start date: the 8<sup>th</sup> of November 2014

## Purposes:

- To form automatized system of receiving messages in electronic format with a further elaboration in Federal Authority for Road Traffic Safety
- To create opportunities for registration and forwarding video evidences by special mobile application

## Peculiarities:

- **Strong protection from jailbreaking and changing video evidences** (make video only in app)
- **Fixation of location, time and date** on the server
- **Collaborative authorization with a site [uslugi.tatarstan.ru](http://uslugi.tatarstan.ru)**
